Conversation Questions Lesson 3

Proficient

Environment

1. Nowadays many people are more conscious of the environment. Have you noticed any changes in your community recently in regard to the environment?
2. Eating meat is often said to be a contributing factor to global warming. Would you ever consider cutting back on meat? Why or why not?
3. How about cutting meat out?
4. Another environmental concern is plastic. Would you ever consider going zero-waste? Why or why not?
5. Plastic is also in our clothes. Would you spend more money for ethically sourced clothing? Why or why not?

-
6. Water waste is another common concern. Would you be willing to have shorter showers or cut back on the water you use to wash dishes? Why or why not?
 7. Would you ever try composting? Why or why not?
 8. The plastic containers for products like shampoo, body wash, detergent, and other household products are another environmental concern. Would you be willing to use bar soap instead of soaps that come in plastic containers? Why or why not?
 9. How would you feel if supermarkets stopped packaging products like rice, fruits, pastas, etc. and you had to start bringing containers from home to package these items? Would you be relieved or annoyed and why?
